17 One order dealing with all the four endowments may, I think, be passed.

13 The endowments on account of the (1) Mysore University, (2) Spectacle Fund, and (3) Dwadasi Katle Fund require investments, the income from which alone should be used for the purpose of the charities. The endowments may be accepted under the G.O. dated 15th July 1909. But the investment of the Funds need not, for the present, be as provided for in this order. Perpetual investments under this order carry interest only at 4 per cent and for a limited period, interest at 5½ per cent is being allowed in the case of some of these investments. For the endowments now under consideration, I think it is desirable that the investments should be in either of our long-term Loans -- 6¼% or 6½ %. 5¼ % bonds are quoted at about par and 6½ % bonds, a little above par. Investment in these bonds gives a return of about 6 per cent which it is desirable to secure in the interests of these endowments. This rate of return, the Funds will be assured if investments on their behalf are made in these bonds for another 16 or 17 years. The excess earned over the annual expenditure proposed to be met from the annual income may be added to the corpus of the Funds. When the bonds in which the investment is made are discharged,

NOTE—Contn. sheet.

the question of finding another suitable investment may then be considered. If perpetual investment with the Government under the order of 15th July 1909 or whatever order on this subject will be in force at the time is then found to be in the interests of the endowments, such investment may be made. In all respects except that of investment, the endowments may be brought under the order of 15th July 1909 for providing for effective administration of the endowments under the control of Government.

14 As for the Srinivasa Mandiram Building Fund ~~xxxx~~ there is no need for thinking of a long-term investment. This Fund is proposed to be used for the extension of the Srinivasa Mandiram Building and if the amount is likely to be spent in the near future, it may remain in the form of a short-term Bank Deposit. If, however, the prospect of its utilisation for this purpose is remote, the money may be invested in either 6¼ % or 6½ % bonds to earn a better rate of interest than a short-term Bank Deposit will yield, or, if the Bank with which it is proposed to deposit, itself offers to pay a higher rate of return for a longer period of fixture, the investment may continue to be in the form of a Bank Deposit. No question of bringing the Srinivasa Mandiram Building Fund under the G.O. dated 15th July 1909 arises.
